Subject: Re: Dimock water quality testing

Carolyn,

EPA expects to begin receiving validated results of water samples from labs in the near future. Once that information is received we will determine next steps in coordination with the state, with the first important step being sharing relevant information with homeowners. Once we have notified the homeowners, we will share a summary of the information with the interested public.

David Sternberg
Press Officer
U.S.EPA

Hi David,

I understand Dimock water quality testing results are supposed to be back this week.

Do you know when, exactly, you expect them? How can I make sure to be notified once the results are in?

Thanks much,
Carolyn
